ABDULLAH NAIM YOLACAN

ARTIFICIAL INTELLIGENCE STUDENT

Artificial Intelligence major with a strong foundation in scalable AI solutions. Passionate about building intelligent systems.

SKILLS

- Data Analysis
- Problem Solving
- Crisis Management
- Creative Thinking
- Adaptability to Change
- Effective Communication

LANGUAGES

- English (Fluent)
- Turkish (Native)

EDUCATION

Bachelor of Science in Artificial Intelligence
Kocaeli University, Kocaeli , Turkiye
- Relevant Coursework: Data Structures & Algorithms, Neural Networks, Linear Algebra, Probability & Statistics.

TECHNICAL SKILLS

- **Languages:** Python, C++, SQL.
- **AI & Machine Learning:** PyTorch, TensorFlow, Keras, OpenCV, Docker.

PROJECTS

- **Loan Approval System:**
  A Neural Network created to experiment on the effects of different parameters on the result.
- **Eye-Tracking using Mediapipe:**
  An Artificial Intelligence model capale of predicting the trajectory of eyes using vector calculations and mediapipe framework.
- **Outlier Detection on Logistics Data:**
  Basic Regression model merged with clustering algorithms in order to detect outliers in route data.
